

PA and PT Irrigation Pump Sets

**Engines : TR1, TR2, TR3
LPW(S)2, LPW(S)3, LPW(S)4 and LPWT4**

**Pumps: SNM 50-160 up to SNM 150-200
(49–420 m³/hr)**

Air or Water cooled pump sets for operating conditions up to 52°C

The pump sets are designed to ensure optimum performance, taking into account standard operating site conditions.

For extreme site conditions (especially high altitudes), engine outputs after derating must be checked against the absorbed power by the pump.

Engine outputs used for the design of the pump sets are continuous ISO 3046 ratings under NTP conditions. The engine selection is made with at least 20% differential between the power absorbed by the pump and the engine output.

Lister Petter PT380L pump set (mobile configuration)

Standard Features

- LISTER PETTER TR air-cooled diesel engine
- Handle start
- LISTER PETTER ALPHA water-cooled diesel engine complete with engine control panel, low oil pressure and high water temperature protection, 12V battery and leads.
- Close coupling arrangement making very easy maintenance operations
- Suitable for ambient temperatures up to 52°C
- Suitable for tropical conditions
- Continuous operation for up to 24 hours a day
- Corrosion resistant galvanised base complete with forklift pockets (TR2/TR3 and LPW(S) 3/4/T4 only)
- 66 litres polypropylene fuel tank with contents gauge (TR2/TR3 and LPW(S) 3/4/T4 only)
- Engine mounted fuel tank (TR1: 13,5 L. and LPW2: 12 L.)
- Operators handbook

- Heavy Duty, single stage, centrifugal, end suction pump with cast iron casing and impeller
- Suction and Delivery flanges conforming with DN2533/PN16 – ISO7005-2/PN16
- Soft packed stuffing box used for shaft seal
- Hardened Chrome Steel shaft sleeve to protect pump shaft

Optional Items

- 12V electric start for TR series pump sets
- Off-road trailer with 2 wheeled axle, towbar and positioning stands (TR2/TR3 and LPW3/4/T4 only); Towing speed limited to 25km/hr maximum.
- Yard trolley kit (TR1 and LPW2)

Capabilities

See overleaf.
